

# Parking Lot Safety Items

Made of tough, recycled tire rubber that withstands heavy traffic, UV, oil, moisture and temperature.  
Asphalt or concrete installation hardware available, use one piece for each predrilled hole.  
Easy, one person installation. Instructions included with each order.  
Stripes are cut from road marking tape.  
MADE in USA. Prompt shipping.

## Speed Bumps (SB)

SB72" 3 stripes, 8 eyes, 4 holes; 52 pounds.  
SB48" 2 stripes, 6 eyes, 3 holes, 35 pounds.

## Speed Bump End Caps (SBEC)

12" x 2-5/8" x 6", 2 holes, 3.25 pounds  
Male joints to fit into SB channels. Available in black.

## Great for Parking Lots, Parking Garages and Alleys

Made of tough recycled tire rubber.  
Optional molded-in stripes of yellow road marking tape let drivers know they are coming to a speed bump.  
Add cat-eye reflectors for night-time visibility.  
Conform to surface contour. Designed for up to 15 mph.  
Can be cut with a utility knife if necessary.  
Dual bottom channels for drainage, wire or pipe to 3/4".  
Removable for surface maintenance.

## Speed Humps (SH)

Rubber Buffings with molded in stripes.  
Removable for surface maintenance or to relocate.  
Use adhesive and hardware if 4+ trucks a day.  
Dual bottom channels for drainage, wire or pipe.  
Male/Female joints on each section.  
6 predrilled holes for hardware per section.  
Withstands heavy traffic.  
Conform to surface contour.

Sections are 3' x 2 3/8"H x 2', 52 pounds.  
Put together as many sections as needed.

## Speed Hump End Caps (SHEC)

2.375" H x 36"L x 17.5" W; 23 pounds.  
5 predrilled holes for hardware installation.  
Joints to fit into Speed Hump sections.

## Car Stops (ST)

## Ideal for Parking Lots, Garages, Wall Protection and other Parking Applications

Will not Chip, Crack or Warp.  
Lightweight, Dependable and Affordable.  
Bonded stripes in yellow or white.

ST-6', 8 stripes, 40 lbs., 4 installation holes  
ST-4', 4 stripes, 30 lbs., 3 installation holes  
ST-3', 4 stripes, 20 lbs., 2 installation holes

## Hardware

14" x 1/2" rebar spike and washer for asphalt installation of all products.

4 1/2" lag (screw, washer and shield) for concrete installation of Speed Bumps or Speed Humps.

6" lag (screw, washer and shield) for concrete installation of Car Stops.

Use 10 ounces of adhesive for glue down applications and so hardware won't work loose with 4 or more trucks daily going over Speed Bumps or Speed Humps. Buy adhesive locally. PL Premium Polyurethane Construction Adhesive works well, as does epoxy.

**Also Available:** Delineators, Personalized Bases, Wheel Chocks and Custom Bases.
